

MASSEY FERGUSON

MF ROTARY RAKES // 11.6' - 30.2'

CONVENTIONAL AND COMMERCIAL OPERATIONS

Better bales start with better windrows. That's why Massey Ferguson Rotary Rakes are designed to increase forage quality, reduce external ash contamination and provide you fluffier, more uniform windrows. These PTO driven rakes allow you to match your rake working height to the cut height, helping maximize forage collection and providing a cleaner field.

BORN TO **FARM**

Farmer-Focused Features

- » 540 PTO-Driven
- » 113.4-inch wheelbase for high level of stability and traction
- » Market-leading turn and track following
- » Industry-leading exclusive tool-less cam track adjustment
- » Individual rotor lift

Pairs Perfectly With

- » 5S Series Tractors
- » 4700 Series Tractors
- » 5700 Series Tractors

MODEL	WORKING WIDTH FT (M)	MINIMUM REQUIRED PTO HP	ROTOR DELIVERY	HITCH TYPE
